- ☐ Any other neurological or psychological problems?

Comments

- ☐ Please describe any other problems you would like to discuss.

*If you like what we do, tell everyone. If you have concerns, tell us.
To health and happiness! Congratulations on your new journey.*

The Village Clinic

Consent Form for Naturopathic Medicine

Naturopathic Medicine is the treatment and prevention of diseases by natural means. Naturopathic physicians assess the whole person, taking into consideration physical, mental, emotional and spiritual aspects of the individual. Gentle, non-invasive techniques are generally used in order to stimulate the body's inherent capacity to heal itself. Your Naturopathic Physician will take a thorough case history, may perform a pertinent physical exam and may suggest lab work or request copies of lab work previously completed by your family physician or specialist.

Please inform your Naturopathic Physician of any disease process you are suffering from and any medications, over the counter drugs and supplements you are taking. Please advise your Naturopathic Physician if you are nursing, pregnant or become pregnant throughout the course of your treatment.

As a patient you will receive information about your diagnosis and/or treatment, alternative courses of action, costs, benefits, risks, side effects and, in each case, the consequences of not having the diagnosis and/or treatment acted upon.

As with any form of medical intervention, there can be risks associated with treatment by naturopathic medicine. These include, but are not limited to:

- aggravation of pre-existing symptoms
- allergic reaction to supplements or herbs
- pain, bruising or injury from injections
- fainting or puncturing of an organ with acupuncture needles

All visits are confidential. We are committed to preserving and safeguarding your right to privacy. A record will be kept of the health services provided to you. The record will be kept confidential and will not be released to others unless so directed by you or if the law requires it.

If required, the Naturopathic Physician may discuss your case with other healthcare providers. I give permission to the physicians and practitioners at The Village Clinic to collaborate on my case. _____
Initial

I understand that results are not guaranteed. I do not expect naturopathic physicians to be able to anticipate and explain all risks and complications. With this knowledge, I voluntarily consent to naturopathic and collaborative care from The Village Clinic. I intend this consent form to cover the entire course of my treatment at The Village Clinic. I understand that I am free to withdraw my consent at any time.

Patient name: (please print) _____ Date: _____

Signature of patient or guardian: _____

Signature of Dr. Heli McPhie, ND: _____
